

## Team 1 SCRUM 1

Project: **BPDA | Brazilian Community Census Analysis**

Members: **Carter Vande Moore, Simon Lu, Angela Tran, Andrew Tuckman**

### **Task Completed this Week:**

- We met with all members of the Brazilian Community Census Analysis team and discussed tasks for Project Deliverable 1.
- For tasks, we decided that we would split the data between our two teams, with our team taking census data from 1970, 1980, and 1990.
  - Each decade was then further divided among the members of Team 1
  - 1970 (Simon Lu), 1980 (Angela Tran), 1990 (Carter Vande Moore/Andrew Tuckman)
- Figured out how to turn a PDF file taken from census.gov into a CSV file for data analysis using Adobe.
- Turned all PDF files from 1980 into CSV form.
  - Searched through the data looking for information on the Brazilian community in Boston.

### **Plans for Next Week:**

- Further research on 1970 and 1990 data will be conducted to search for more relevant data regarding the Brazilian community in Boston.
- Meeting on Monday (10/18) with all members of the Brazilian Community Census Analysis team to provide updates and avoid conflicts.
- Meet with Team 1 to complete Deliverable 1 due on Wednesday (10/20).

### **Issues:**

- Data taken from census.gov for the year 1980 has only a single entry for the Brazilian community in Boston.
  - Information regarding gender/age/income for the Brazilian community in Boston was not found.
  - Questions to ask: Is there another data source that we are missing? Where can we find the Brazilian community data needed for analysis?

### **Client Meetings:**

- Latest client meeting was on Friday (10/8, 9am) for introductions and more information about the project. See SCRUM 0 for more info.
- Next client meeting will be on Friday (10/22, 9am).
